<sup>1</sup> Við tað at vit bert hava ein veitara av fastneti, verða fastnet nummur í Føroyum flutt millum veitararnar við at broyta veitaraforval. Broyingar í veitaraforvali koma fyrri tá kundar skifta veitara, tá ein kundi stovnar hald og samstundis velur veitaraforval, og tá kundi sum hevur veitaraforval strikar haldið. Tað hevur ikki verið møgult at uppgera flytingarnar serstakt, og tí vísir talið fleiri "porteringar" enn rætt er.

Since there is only one provider of the physical fixed network, fixed numbers are ported by changing the carrier pre-selection prefix. However, it has not been possible to screen out transferred numbers only. Hence, this figure contains transferred numbers as well as new or terminated numbers.
